Investment strategy

The Trust predominantly invests in high quality short-term money market and bank-based securities to achieve a very stable income stream and attempts to forecast the short-term direction of the interest rate cycle.

Quarter highlights

- The trust continued its outperformance of the Bank Bill Index. Money market yields dropped during the quarter reflecting the expectations for further easing in cash rates by the Reserve Bank.
- Allocations to Term Deposits, NCDs and cash notice accounts have contributed to the performance over the quarter.
- There were no significant detractors from performance.
