

90 Trust Profile

Investment objective

To provide capital growth over the long-term by investing in a diversified portfolio of predominantly growth assets with minimal defensive asset exposure and to achieve total returns after fees in excess of the benchmark¹ over a rolling five year period.

Investment strategy

IOOF MultiSeries 90 (Trust) gains its exposure to a diversified portfolio of investments through a mix of investment managers.

The high growth nature of the Trust provides a majority exposure to growth assets such as property, Australian and international shares and alternative assets, with a lesser exposure to defensive assets, such as fixed interest and cash.

A mix of passive, factor based and active investment managers may be selected to manage the assets of the Trust providing differing yet complementary investment styles to achieve more consistent excess returns.

The Trust is authorised to utilise approved derivative instruments for risk management purposes and investment efficiency. Please note that derivative instruments cannot be used to gear the Trust's exposure.

The underlying managers may utilise strategies for the management of currency exposure. It is the strategy of the Trust that international currency exposure may be hedged. The Trust has the capacity to change the level and nature of any currency overlay or allocation to underlying managers to manage currency risk.

Investor profile

The Trust may be suitable for investors:

- with an investment time frame of seven to ten years
- with a high level of risk tolerance
- who are seeking capital growth through a well-diversified portfolio of growth assets
- who can accept the volatility associated with a portfolio with significant growth asset exposure.

Quarter highlights

- Manager changes: Alphinity Global replaced State Street Global (international equities); Ardea Diversified Bond Fund (diversified fixed interest); in Australian equities, Northern Trust replaced Janus Henderson and Platypus, and UBS HALO transitioned to Yarra.
- Alternatives managers outperformed. In particular, global listed infrastructure produced strong returns.
- International equities portfolio outperformed, with most of the underlying managers outperforming.
- Direct property portfolio outperformed over the quarter.
- An overweight to cash detracted value as cash had the lowest return for the quarter.
- Australian equities portfolio underperformed, with SSgA and Invesco underperforming.

Asset, strategy and manager weightings⁵

Notes to the trust profile

- 1 The composite benchmark incorporates the applicable indices (or benchmark) for each asset class weighted against the Trust's target (or neutral) allocation.
- 2 Effective from 1 July 2017, this Trust has elected into the Attribution Managed Investment Trust (AMIT) regime, which may allow income to be 'attributed' to unitholders without actually paying a cash distribution for that income. Please refer to the latest IOOF MultiSeries Product Disclosure Statement (PDS) for further information about the AMIT regime.
- 3 The estimated management cost includes the investment management fee and indirect costs. See the latest IOOF MultiSeries PDS for full details on fees and costs. The management cost is based on the management cost incurred for each Trust as at 30 June 2018 and subject to change from time to time.
- 4 Performance is net of management costs and expenses as disclosed in the PDS. Performance is based on exit price to exit price for the period and assumes that all distributions are reinvested. Management costs and other expenses are accounted for in the exit price. Past performance is not a reliable indicator of future performance.
- 5 The asset allocations and manager weightings reflect the combined indirect exposure of the Trust's holding via other IOOF group unit trusts and/or direct investments. Actual asset allocations may move outside the target asset allocations and ranges from time to time.
- 6 Property asset sector may include exposure to Australian direct property and Australian and international property securities.
- 7 Provides indirect composite stock holding of the Trust's exposure via underlying investment managers.

Important Note: This fund profile is issued by IOOF Investment Management Limited (IIML) ABN 53 006 695 021, AFS Licence No. 230524, as Responsible Entity for IOOF MultiSeries. IIML is a company within the IOOF group which consists of IOOF Holdings Ltd ABN 49 100 103 722 and its related bodies corporate. The offer of units in IOOF MultiSeries is made in the current PDS. This fund profile is not intended to represent investment or professional advice. The information does not take into account your individual objectives, financial circumstances or needs. You should assess whether the information is appropriate for you, having regard to your objectives, financial circumstances or needs. You should consider the PDS in deciding whether to acquire or to continue to hold the investment and consider talking to a licenced or appropriately authorised financial adviser before making an investment decision. The information in this fund profile is effective 31 March 2019.
