

Occupation Guide

IOOF Occupation Classification

1 Professional

White Collar Professionals performing no manual duties (e.g. Doctor, lawyer, accountant). Usually those with a tertiary qualification or registration by a professional body (they must be using these qualifications in their occupation). Senior executives with university qualifications also are in this category. Those well-established senior executives (those with 10 or more years in that role) with incomes in excess of \$80,000 pa, without tertiary qualifications may also be included.

2 White Collar

Clerical, administration and managerial occupations involving office and travel duties. No manual work (e.g. administrator, book-keeper, IT systems operator). Includes occupations with tertiary qualifications that involve very light physical work (e.g. osteopath, physiotherapist).

3 Light Blue Collar

Certain qualified tradespeople and other occupations (e.g. chef, electrician) who engage in light manual work only. Includes business owners in non-hazardous industries involved in light manual work (e.g. coffee shop owner) and those who may supervise medium blue collar workers (no more than 25% of their work time). Includes occupations that are not limited to an office (e.g. field surveyor).

4 Blue Collar

Qualified skilled tradespeople and other occupations in non-hazardous industries wholly involved in manual duties (e.g. plasterer, mechanic, welder).

Income Protection (IP): Limited to 2 year or 5 year benefit periods only.

5 Heavy Blue Collar

Heavy manual workers performing higher risk occupations (e.g. bricklayer, labourer, truck driver).

Income Protection (IP): Limited to 2 year or 5 year benefit periods only.

H Hazardous Occupation

Includes unskilled workers, those involved in hazardous or very heavy manual work and/or presenting particular underwriting difficulties.

These occupations will have their Total and Permanent Disablement (TPD) premium loaded the same as a Class 5 and have their TPD definition restricted to the Loss of Limb and the Activities of Daily Living definitions under the IOOF TPD definition.

TPD means in the Insurers opinion that the Insured Person is:

Solely because of Illness or Injury, you have suffered the permanent loss of:

- i. the use of two limbs (where 'limb' is defined as the whole hand below the wrist or whole foot below the ankle), or*
- ii. the sight in both eyes, or
the use of one limb and the sight in one eye.*

OR

Solely because of Illness or Injury, you are unlikely ever to be able to perform at least two of the following Activities of Daily Living:

- *dressing – the ability to put on and take off clothing without assistance*
- *bathing – the ability to bathe or shower without assistance*
- *toileting – the ability to use the toilet including getting on and off without assistance*
- *mobility – the ability to get in and out of bed and a chair without assistance*
- *feeding – the ability to get food from a plate into the mouth without assistance.*

Where ‘assistance’ means the assistance of another person.

D Decline

Cover is not available either on the basis of

1. excessive risk or
2. the type of cover is not available

Refer Individual consideration

We reserve the right to individually consider all occupations in conjunction with any other evidence we have.
